1. This animal is more common in Spain than Hyannis! It keeps watch over diners.
2. This animal (in the summer months on Main Street) spends a lot of time going in circles. You may also spy one on the awning of a pizzeria.
3. We all know this animal likes honey—you will find him looking for honey flavored fudge perhaps, or cotton candy or taffy!
4. This animal lives in the water but on Main Street it is colorful. You will also spy it on the awning of a restaurant and also on something that is another name for an animal.
5. Most people have a love/hate relationship with this ubiquitous animal on Cape Cod—especially around the beaches.
6. This animal—a man’s best friend.
7. Glorious ocean creatures—you can actually take a cruise out for an afternoon to look for them...but you will find an image of one right on Main Street!
8. This animal creates a lot of havoc for beach goers...but the one on Main is smartly dressed.
9. Not the most common bird you will find on Cape Cod.
10. Why people love coming to the Cape—one of our famous meals you can find right on the harbor front...bellies or strips—fried please!
11. Superstitious folks will not let one of these cross their paths, but you will want to cross into this path for delicious fare.
12. See if you spy the Octopus along Main (Hint: it’s fragile!)
13. Although you won’t see the animal...you will find its name. (Hint: a sea creature)
